# Key skills

- Teamwork
  - Time-Management
  - Project Management
  - Communication (Intermediate)
- 

# Projects

## Online shopping Website:

- I am the lead of the project and my team has 2 members i.e. I and other one who also has much contribution while creating this project.
- Developed a web-based fully responsive shopping application using HTML and CSS for frontend. Once a particular product has been found and selected on the website of the seller, most online retailers use shopping cart software to allow consumer to accumulate multiple items.

## Student Management System:

- In this project also, I am the lead of the project. This project generally helps the schools and colleges For managing the data of students who are studying there. It eases the faculty and management to manage the students and their data and whenever they want data, they can access easily.
